EXCLUSIVE NEWS TODAY

## The Grinch Raids School

### Classrooms a Mess

Can you believe what is going on at Dr. Probe School?

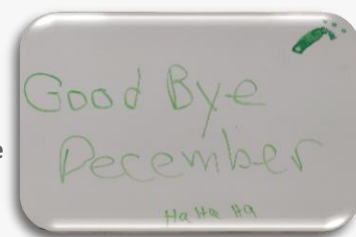

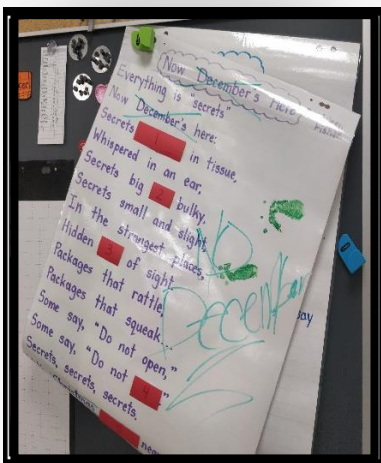

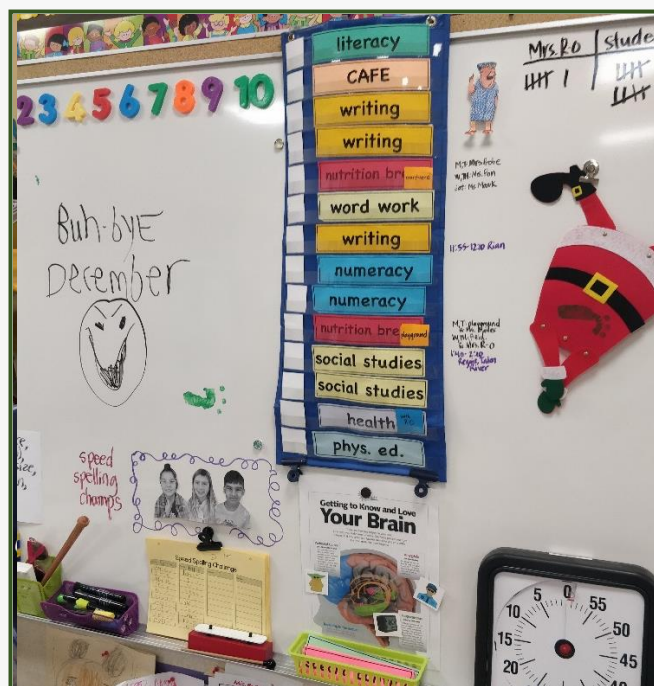

School administration is baffled. Principal, Mr. Van der Meer said: "I am in a state of shock. Our motto is the four C's: Care, Creativity, Cooperation, and Courage. None of that is happening right now. The Grinch has turned things upside down. Hopefully our grade two students can warm the Grinch's heart, so things can return back to normal".

The hardest hit were members of LG 21, 22, 23, and 24. Teachers say the Grinch left a trail of destruction. It looks like he entered and left the classrooms through the ceiling tiles in the roof. Evidence has been collected and shared with local authorities. The grade twos have already begun a letter writing campaign to warm the Grinches heart.

Go to our school website and you will see the mayhem that the Grinch is causing. According to inside sources, "The Grinch" has hijacked the home page. No one can take off the crossed-off December calendar. If you know of a computer expert that you think can help, please contact the school.

Check this out: "The Grinch" uprooted desks, walked on walls, dumped containers over, and just plain old made a mess of things. Interviews with the teachers revealed that there is added stress in the school, not to mention extra work for the caretakers and administration.
